

UEA OCCUPATIONAL HEALTH POST MEDICAL ELECTIVE SCREENING

****Please keep a copy of this for your reference****

NAME.....DOB.....

Countries VisitedReturn Date.....

What type of environment did you work in (i.e. hospital/community)?

Did you have any bad experience e.g crime, RTA, sexual assault? [] NO [] YES - *If yes, please give details;*

Whilst on elective did you have any blood/body fluid exposures? [] NO [] YES - *If yes, please give details;*
(eg; sharps/needlestick injury/if you took PEP – which one)

Did you have or have you currently any diarrhoea? [] NO [] YES - *If yes, please give details to include how long symptoms lasted for and any treatment;*

Were you hospitalised during your elective or since your return? [] NO [] YES - *If yes, please give details of the symptoms, diagnosis, investigations and treatment;*

Did you experience any of the following symptoms (of TB) in the last month?

- Recurrent night sweats [] NO [] YES
- Persisting general malaise [] NO [] YES
- Persisting loss of appetite [] NO [] YES
- Unintentional weight loss >3kg [] NO [] YES
- Recurrent fever [] NO [] YES
- Unexplained shortness of breath [] NO [] YES
- Persistent cough for over 3 weeks [] NO [] YES
- Coughing up blood [] NO [] YES

If you have visited a high TB risk country you could have been exposed to infectious TB and therefore be at risk of developing TB in the next 2 years. If you develop any of the above symptoms you must seek medical advice from your GP. It is essential that you point out to your GP that you may have been exposed to TB during your elective. You are likely to be referred for a chest x-ray and you should not have patient contact until you know your chest x-ray is clear.

Have you generally been fit and well since your return? [] YES [] NO - *If no, please give details;*
